

INDION® Speciality Chemical Treatment Programmes

Ion Exchange (India) Ltd. offers a complete range of speciality, customised chemical treatment programmes to complement engineered water treatment and provide optimum plant performance. Our highly trained engineers conduct in-depth surveys of your plant and system requirements, closely monitor the treatment programmes and regularly evaluate results to make required adjustments for optimum benefit.

INDION® Cooling Water Treatment

We offer a broad range of environmentally safe treatment programmes for open recirculating cooling water systems.

INDION corrosion and scale inhibitors control corrosion, scaling and fouling over a variety of water quality and system conditions. Our various biodegradable biocides control growth of algae, fungi & bacteria.

- Corrosion inhibitors
- Scale inhibitors / Dispersants
- Bio-dispersants
- Oil dispersants
- Silica inhibitors
- Iron specific dispersants
- Oxidising biocides
- Non-oxidising biocides / Algaecides
- Multi-functional products

Closed Circuit Corrosion & Scale Inhibitors

A complete range of INDION corrosion inhibitors to control impingement & general corrosion.

- Engine cooling systems
- Hot water systems
- Chilled water systems
- Furnace cooling systems

Once-through Circulation Systems

We offer non-polluting INDION chemicals that improve cooling efficiency of systems.

- FDA-approved potable water treatment
- Metal sequestrants
- Corrosion inhibitors
- Scale retardants
- Antifoulants-dispersants

INDION® Boiler Water Treatment

We offer a wide range of boiler water treatment programmes for low, medium and high pressure boilers to prevent deposits and corrosion in pre-boiler, boiler and post-boiler systems.

Our unique DEHA based oxygen scavengers offer superior protection against corrosion even in condensate lines.

- Phosphate treatment programme
- Carbonate treatment programme
- Chelant programme
- Closed system treatment
- Electric boiler treatment
- Sludge conditioners
- Anti-foamers
- Oxygen scavengers

Complete condensate line treatment programmes solve specific corrosion problems:

- Filming amines
- Neutralising amines
- Combination of filming & neutralising amines

INDION® Fireside Treatment

We offer energy-saving fuel additives that are vital for any combustion system treatment programme.

- Water emulsifier / Sludge dispersants
- Combustion catalysts
- Slag / Corrosion control agents
- Residual fuel oil additives
- Multi-purpose fuel oil additives
- Multi-purpose solid fuel additives

- Coal dust suppressants
- Coal flow enhancers
- Stack emission control

INDFLOC® Flocculants

- Raw water treatment
- Paper making
- Oil field
- Chloralkali
- Steel
- Effluent treatment
- Mineral processing
- Sugar
- Asbestos

INDION® Easytest Kits

Specially designed for on-the-spot analysis of make-up water, boiler water and cooling water, without a trained chemist.

- Total hardness
- Alkalinity
- Iron
- Sulphites
- Phosphate
- Calcium hardness
- Chloride
- Silica
- TDS, and many more

INDION® Antiscalants & Membrane Cleaning Chemicals

- Eliminate scaling & fouling of reverse osmosis membranes
- Dispersal of suspended solids & colloids
- Removes biofoulants, organics, metal oxides/hydroxides & other colloidal / particulate based foulants

We also offer a range of INDION speciality chemicals for sugar, paper, petro-refinery, mining and other processes.
